Jamie Bartoszek
>Software Recruitment Specialist

Being a specialist in the software development market means I'm not your recruiter that reads of a job spec, I like to talk tech and get to know who I'm speaking with. I strive to change the norm of recruiters, that means delivering top-notch talent (NOT whatever I can find) to companies who are doing amazing things and being someone candidates can genuinely rely on.

MY EXPERTISE:

> Software & Web Development
> Full-Stack Development
> Mobile Apps

> Swift/Kotlin/React-Native
> Java/Scala/Python/C#
> JavaScript/React/Angular

> DevOps Tooling & Methodologies
> Cloud Platforms
> Microservices & REST

RECOMMENDATIONS:

Deutsche Bank

"Jamie approached me about an opportunity for a Senior Java role at a major financial company based in London. From the start, he was keen to understand what I was looking for first and know what kind of role would have me engaged. A proactive communicator, and in spite of his foot injury, he ensured he was there at all times to give me clear, valuable information and advice along the entire process – from initial online tests to face-to-face interviews to negotiations at the offer stage. Jamie proved to be a nothing short of a good professional recruiter and would be an asset to any company or individual looking for a new opportunity."

Maaddhu Mikkili,
Engineer, Deutsche Bank

easyJet

"Jamie is a top-quality professional recruiter who is able to match candidates to their perfect opportunity. He got me the right position in a very promising company. He always went out of his way to keep me motivated and support me at every stage and now I am taking the next step in my career thanks to him. Jamie has still continued his help and made sure I was happy with everything. I will say both employer and job seekers can count on Jamie, he definitely will not waste your time."

Jamiu Ayinde,
Senior Software Developer, easyJet
