

Jamie Bartoszek

> Senior Software Recruitment Specialist

Being a specialist in the software development market means I'm not your recruiter that reads of a job spec, I like to talk tech and get to know who I'm speaking with. I strive to change the norm of recruiters, which I base on 2 priorities; delivering top-tier talent that isn't another disappointing profile & being someone candidates can genuinely rely on 24/7 (and yes, even on the weekends!).

MY EXPERTISE:

- > Software & Web Development
- > Mobile Apps
- > UX/UI
- > Java/Python/C#/Golang
- > JS/Node/React/Angular
- > Swift/Kotlin/React-Native
- > Microservices & REST
- > DevOps Tooling & Methodologies
- > Cloud Platforms

RECOMMENDATIONS:

"Jamie helped us secure talent for two hard to fill roles at King. He provided high quality, thoroughly vetted candidates and managed to provide great shortlists of hard to reach candidates. It's a real bonus that he takes the time to get to know the company and also screen candidates properly, which is something that a lot of other recruiters don't bother doing. If you need help filling your roles, I recommend you speak to Jamie."

Mark McDaid,
Game Studio Recruiter, King

"Overall I have been nothing but impressed with the professionalism and dedication Jamie has shown since he has been working with me and the team at easyJet. He doesn't give up and that is a trait that is refreshing to work with especially amongst a tough candidate market. He is passionate about his candidates and goes out of his way to make sure he is giving them the best service. What more could you want in a supplier representing our brand?! Thank you Jamie, I look forward to working together more in the future."
