

## Alex Sanders

### > Senior Data Consultant

I work as a Senior Consultant in the data space at TechNET Digital. I have successfully placed individuals with diverse and niche skillsets in businesses from an array of industries both big and small. I love working with clients and candidates alike and I believe that the right candidate can transform a business!

### MY EXPERTISE:

- > Python / R
- > SQL
- > SAS / SPSS
- > Google Analytics, Adobe Analytics
- > Tableau, Power BI, Qlik
- > Deep Learning
- > Machine Learning
- > Natural Language Processing
- > Artificial intelligence
- > Hadoop Stack
- > BigQuery
- > MongoDB
- > Cassandra

"Alex has been absolutely great to work with. He contacted me to inform me of a job opportunity which immediately interested me and aligned with my career goals. Throughout the entire recruitment process, he's been very friendly in all our dealings, he's kept me constantly updated, and has represented me and my interests brilliantly. Now thanks to his efforts, I've been able to land myself a great new job!"

SMG - Service Management  
Group

"From the start of placing me, Alex did a fantastic job. Always prompt and courteous, any problem you face he will solve it ASAP, even on weekends! Glad to have worked with and continue to work with him."

**Meisam Ebrahimi**  
Web & Data Analyst,  
SoundCloud

"Alex and his colleagues have helped me fill two roles for Infrastructure Engineers, this was our first use of TechNET and found the candidates to be exactly what we were looking for. They took the time to get to know us, our requirements and our environment which helped us find the right people. Thanks!"

**Simon Challis**  
Infrastructure & DBA Manager,
