Making waves in Digital

# Junaid Mahroof

## >Python Recruitment Specialist

I'm very passionate about the ever-changing technology around us. Coming from a business management background and having owned my own e-commerce business I realise how the power of advanced Web/App tech has innovated how people interact and buy. With multiple years of experience in Software recruitment I pride myself in finding only the best talent in the market for every client. I work, read, speak, and live Python, one of the fastest growing programming languages today. Enthusiastic about what the future holds within the modern era of software and absolutely dedicated to ens uring both my candidates and clients receive the finest service.
